

AHMED AREBAT

SOFTWARE ENGINEER | MOBILE APP DEVELOPER

Tripoli, Libya | +218945679530 | ahmed.arebat0@gmail.com

PROFESSIONAL PROFILE

Software Engineering degree holder with hands-on experience developing Flutter and Dart mobile applications. Built projects using Firebase Authentication, Cloud Firestore, and BLoC state management; familiar with REST APIs, Git/GitHub, debugging, and software testing fundamentals. Brings practical troubleshooting and customer-facing problem-solving experience from managing technology-related businesses.

TECHNICAL SKILLS

Development: Flutter, Dart, responsive mobile UI, Material Design, BLoC/Cubit

Databases & APIs: Cloud Firestore, Firebase Authentication, REST APIs, JSON, SQL (basic)

Engineering Practices: Git/GitHub (version control), asynchronous programming, debugging, testing fundamentals

Tools & Additional: Postman, Firebase, familiarity with Supabase

SELECTED SOFTWARE PROJECTS

Task Management App | Flutter · Dart · Firebase · BLoC

- Built a task-management app with Google Sign-In using Firebase Authentication and user-specific tasks stored in Cloud Firestore.
- Used BLoC for state management and created responsive screens with lightweight animations.

Notes App | Flutter · Dart · Cloud Firestore

- Developed a cloud-backed note-taking app with create, edit, delete, search, and favorites features.
- Implemented dark-mode support and asynchronous data operations in a clean mobile interface.

EDUCATION

Bachelor of Science in Software Engineering

2026

El-Mergib University, Libya
